# DIGITAL AS-BUILT TECHNOLOGY SOLUTION

Fast Forward Your Digital Roadmap – A Virtual Experience | March 20-21, 2024

## Interested in Exhibiting?

FHWA, along with State Departments of Transportation, are making a significant move towards digitalization in highway infrastructure. Fast Forward Your Digital Roadmap is a dynamic two-day virtual event sponsored by the Federal Highway Administration's Every Day Counts 6 implementation initiative. This capstone event will gather public and private subject matter experts, entrepreneurs, and solution providers.

Technology solution providers are invited to apply for the Vendor Showcase to further advance digital delivery and digital as-builts.*

This interactive experience will provide participants an opportunity to engage with presenters and their peers before, during and after programmed events.

## Why Exhibit?

▶ Meet transportation infrastructure owner/client organizations who are driving the shift to digital as-builts

▶ Understand market needs and "pain points" from an owner/client perspective

▶ Build and customize a virtual exhibit with informationrich multimedia content showcasing your unique solution

## Participate in **The Challenge Session?**

The  challenge session  is an opportunity to demonstrate real and reliable solutions for creating digital as-builts to encourage our highway industry. Technical solution providers/software vendors are invited to show their 'end-to-end' digital project delivery workflows that integrate data to generate an as-built (i.e. survey to design to construction to GIS/data management system). You can work with your own suite of software applications or in partnership with other providers. In advance, you will be provided a design file representing a highway transportation project, which contains information about one or more assets (e.g. geometry, pay items, other assets). You'll showcase your technology solution stack to support and execute digital workflows using this design file as a basis.

## LEVERAGE THE POWER OF A VIRTUAL EXHIBIT BOOTH

Meet and hear from industry vendors to learn about e-Ticketing products, systems, and solutions.

▶ Visitor registration/sign in

▶ Live streaming video/chat

▶ Private meeting rooms

▶ Host multimedia content

▶ (video, web, pdf, etc.)

▶ Engagement analytics

There is no cost to exhibit. Virtual booth setup and training provided.

Applications for exhibit booths must be received by February 27.
